Re Simple Kitchens, Thame

Thomas Heidkamp of Simple Kitchens designed and built our kitchen/utility room during late 2009. The original response was to an enquiry via the website and he responded quickly and then visited, provided helpful advice and a design.

Thomas followed our requirements, especially our desire to have cupboards up to the ceiling and he designed 'spice' shelving to finish the cupboard line at the window. He also built wine racks and shelving to fit the odd spaces alongside the cupboards.

Throughout his workmanship and attention to detail was demonstrated as indeed was that of all his subcontractors who all also produced work of a very high standard.

Costs were as agreed at the outset with deviations only resulting from minor changes instigated by us but readily accommodated within the project.

Clearly a kitchen refurbishment involves considerably upheaval but this was minimised as far as possible and generally the kitchen remained operational throughout.

We are delighted with the kitchen and Thomas' professional approach – we would have no hesitation in recommending him and his company.
